

June 23, 2025

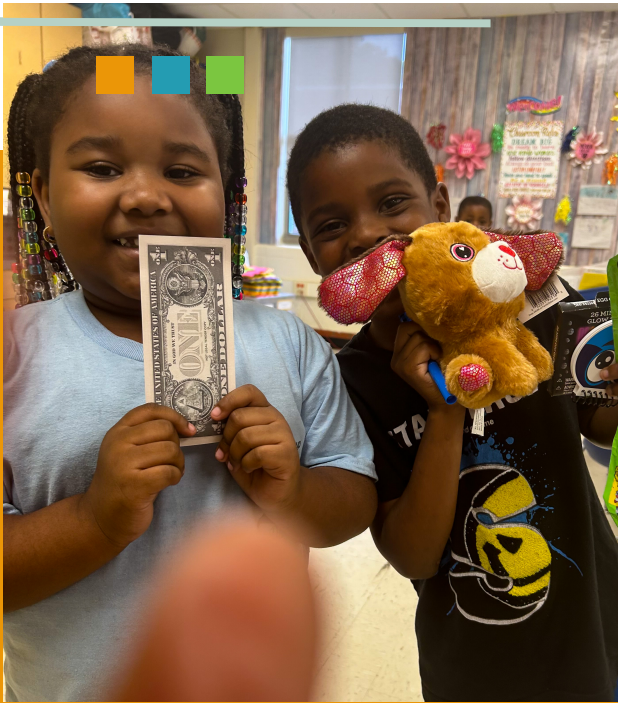

Week #3 at The Plantersville Summer Academy!

It was a fun third week with a mixture of STEM classes and enrichment activities.

Students with the Media Club explored Hasty Point Plantation and Mommy Mica visited younger classes with a lesson about the sounds of the Ocean!

Students visit the "Class Store" to purchase goodies they earned for good behavior and grades!

A unique way to get students thinking about monetary exchange.

WEEK 4 JUNE 23 - 26, 8:30 AM - 5 PM

Monday 6/23

YMCA
Video Production
Our Village Media Club
Drone Class
Cooking with Chef Brandon

Tuesday 6/24

SixAxis
YMCA
J Davis Video
Our Village Media Club
Drones
Dance Class

Wednesday 6/25

YMCA
HCTC Boat Building
Classes
Carver's Bay Library
Savannah Park Field Trip

Thursday 6/26

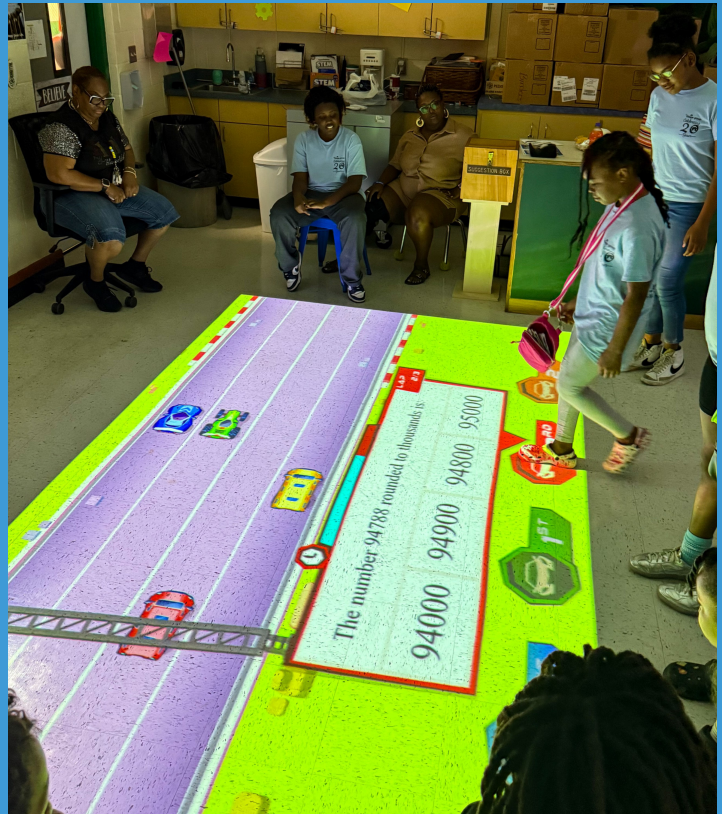

Ripley's Aquarium
Class Time
Grand Prix Racing
Grand 14 Movies
Hobcaw Barony Trip

FIELD TRIP SPOTLIGHT

The Burroughs and Chapin Art Museum got students off campus to see some interesting modern art in Myrtle Beach!

SO MUCH STEM AT THE SUMMER ACADEMY!

Science, Technology, Engineering, and Math are top priorities at The Plantersville Summer Academy! Students have math tutoring to prevent summer slide, and enjoy trips such as a AMTRK to learn about engineering applications practice.

Our Drone Class this week held both excitement and surprise as students learned to fly their drones, and the common mistake of crashing a drone. It's an important lesson that every drone pilot must understand, as drones should be treated as tools rather than toys.

FRIENDLY REMINDERS

To attend **field trips** students must be in appropriate attire with PSA 2025 t-shirt and closed-toe shoes.

Cell Phone usage is not permitted in the classroom or on the school bus.
*Disciplinary action will be taken on students who violate this rule.

Parents must be at the bus stops for **student drop off**. Please refer to your student bus schedule for pick up and drop off times.

Bus Behavior: Students must remain seated, no horse playing, loud talking, profanity, or eating on the bus. This will ensure safety for both students and drivers.

Mrs. Sabrina Billings implements an interactive gaming platform as a unique reinforcement for mathematics concepts and skills! We love to see our students excited to use their math skills in competition with each other, as we know that the lessons are developing into true STEM skill sets!
